Work Experience

Records Associate | BC Ministry of Education & Child Care

Oct 2023 - June 2025 / Vancouver, Canada

- Review and prepare incoming documents for the evaluation team
- Responds with email inquiries and assists with reception coverage
- Utilized Microsoft Suite and in-house software tools to collaborate across teams.
- User test the current internal document storage application for workflow improvements
  - Conduct and lead colleagues' user experience for reporting to the IT department

Freelance Video/Photo Editing & Social Media Consultant

Aug 2021 - Ongoing / Vancouver, Canada

- Successfully edited videos for clients' business platforms and increased their online engagement with their customers
- Customized motion graphics to aid in visually presenting the content of the videos

UX Designer | Contracted Project - Universole Fit

Nov 2023 - Dec 2023 / Vancouver, Canada

- Conducted user interviews and user testing via online video calls
- Led the redesign by integrating user feedback and business objectives

Design Projects

UX/UI Design Project | Flex

Jan 2023 - Apr 2023, BrainStation UX Design Diploma Project

- Solely worked on a UX design project that focuses on providing younger generations with reliable and accessible short-form finance videos.
- The project consists of user interviews, user testing, brand development, UI library, Hi-Fi Prototype, et cetera.

YouTube UX Redesign | Mobile App

Jun 2022 - Aug 2022 / Solo Passion Project

- Addressed the issue of the lack of a dedicated space for live streaming.
- Conducted user interviews, testing and built an interactive prototype
